CrowdStrike Integration - using API

Steps to Get Client ID and Client Secret in CrowdStrike Falcon

1. **Log in to the Falcon Console**
   - Go to: https://falcon.crowdstrike.com
   - Use your admin credentials to log in.
2. **Navigate to API Clients and Keys**
   - Click on the **"Support"** (question mark icon) or your **User avatar** on the top right.
   - Select **"API Clients and Keys"** from the dropdown.
     Alternatively, go to: `https://falcon.crowdstrike.com/support/api-clients-and-keys`
3. **Create a New API Client**
   - Click on **"Add new API client"**.
   - **Name** your client and optionally add a **description**.
   - Under **API Scopes**, select the required **permissions** based on what you need (e.g., read access to Hosts, Alerts, IOCs, etc.).

Data Stream	Scope
Intel	read:intel
IOC	read:iocs
	read:ioc-management
Alert	read:alert
Host	read:host

   - Click **"Save".**

> **Please provide to AQUILA support team.**

1. **Copy the Client ID and Client Secret**
   - After saving, the **Client ID** and **Client Secret** will be displayed **once**.
   - Copy them immediately and store them securely (e.g., in a password manager or secrets vault).

2. **Token url**
