RM Updates

Support for Task Milestone

The image shows a 'Milestone' modal form overlaid on a task management interface. The modal has a title bar with a close button. It contains three main input fields: 'Title' (a single-line text input), 'Description' (a multi-line text area), and 'Date' (a date picker showing 'mm/dd/yyyy'). A green 'SAVE' button is at the bottom. The background interface includes a 'Task Table' with columns for Risk ID, Task ID, Task Title, Risk Owner, and Assignee. The table lists four tasks, with the first two assigned to 'Zandra Narvaza'. On the right, there are summary cards for 'Task Completed' (0) and 'Total Tasks' (4), and a 'Task Milestone' section with a '+ CREATE MILESTONE' button and a 'No Results Found' message.

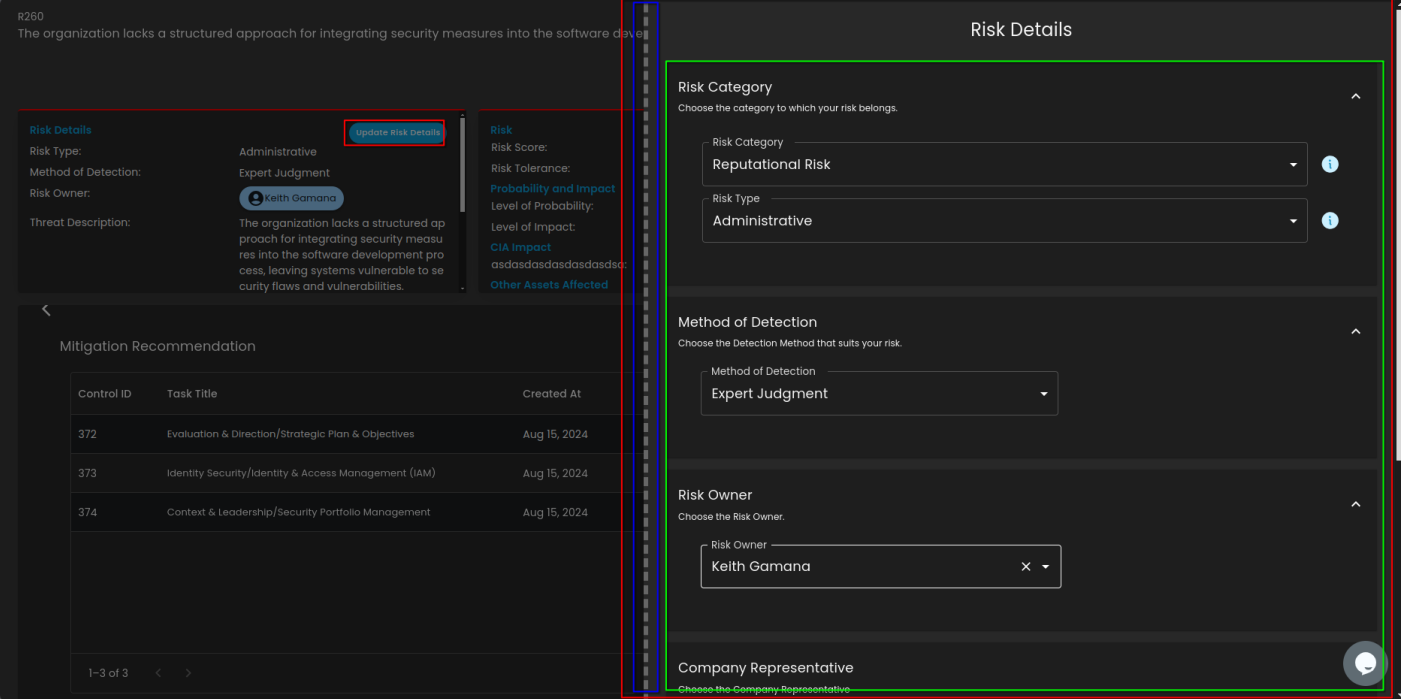

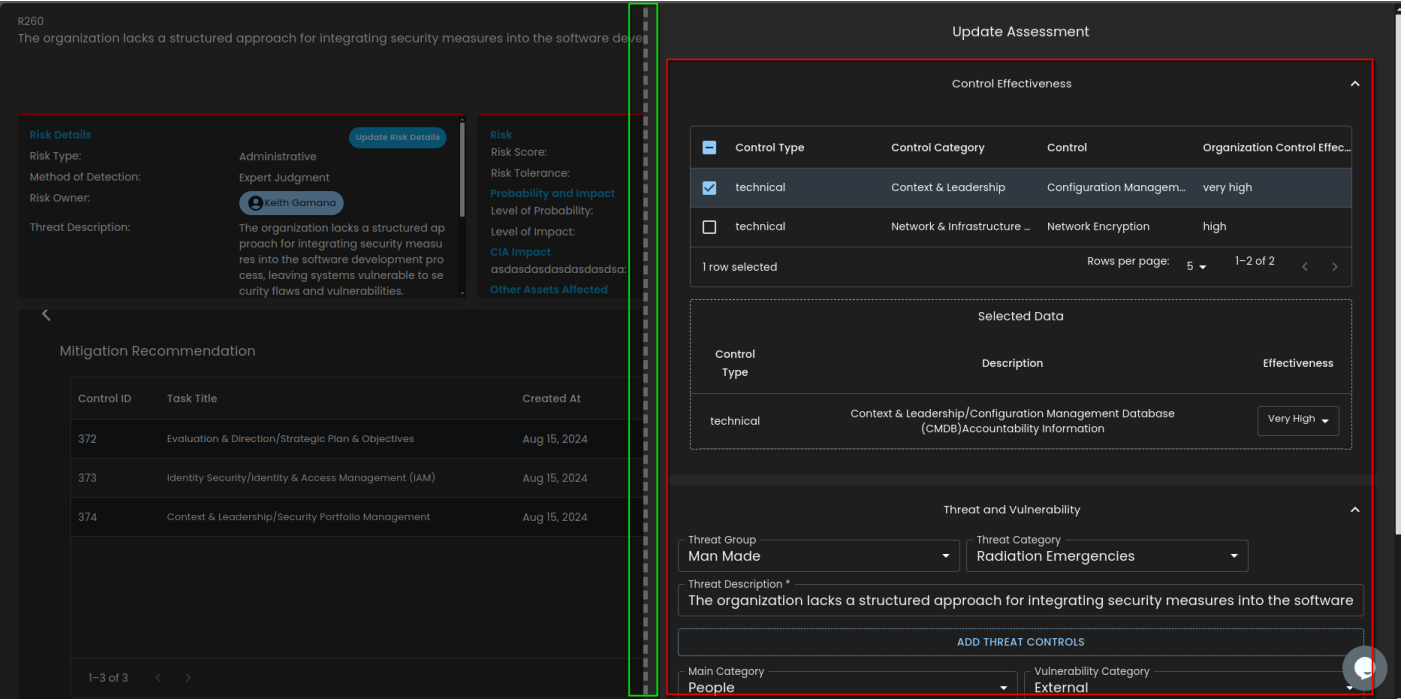

The screenshot displays a project management dashboard with a dark theme. The top section is titled "Task Gantt Chart". It features a search bar, a filter icon, and two buttons: "ONLY MY TASKS" and "SHOW ONGOING TASKS ONLY". A dropdown menu is open, showing "Milestone", "All Category", "Project", "Task", and "Milestone". To the right of the dropdown is a button labeled "Overall Due".

The main area contains a table with task details and a Gantt chart. The table has columns for "Task Name", "Assignee", "Start Date", and "End Date". The Gantt chart shows a timeline from August 15 to August 25, with tasks represented by colored bars and milestones by blue diamonds.

Task Name	Assignee	Start Date	End Date
milestone_title_ni		2024-08-14	2024-08-14
milestone_title_ni_1		2024-08-18	2024-08-18
milestone_title_ni_2		2024-08-25	2024-08-25
milestone_title_ni_3		2024-08-29	2024-08-29

wowers		2024-08-15	2024-08-15
nge		2024-08-16	2024-08-16

The bottom section is titled "Project Management Timeline" and includes a dropdown for "Overall Risk". It shows a timeline from January to December with various tasks represented by colored bars. A legend on the left lists tasks with corresponding colored circles: Context & Leadership/Defining Business Context & Mission (blue), Security eDiscovery and Forensic Security & Privacy Attributes (orange), Data Security/Data Handling Procedures (green), Network & Infrastructure Security/Endpoint Protection (yellow), and Security Threat Detection/Unauthorized Network Services (blue).

To the right of the timeline is a "Task Overview" section with a "CREATE TASK" button and a dropdown for "Overall Due". It displays two counts: "Unassigned Task" and "New Tasks", both showing the number 5.
