

# Daily Update: August 22

Here are the main updates of the CISO Workplace:

## CIM Updates:

### Support for Table Format Timeline

The screenshot displays the CISO Workplace interface for a specific alert. The main panel shows a timeline view of the alert, with a 'Table Timeline' toggle switch highlighted by a red box. The timeline shows a single event on August 20, 2024, at 17:33:46. The event details are as follows:

Field	Value
rule_detection	
User Name	romeljhon
Host Name	crnd-romel
Source IP	
Destination IP	
Event Category	malware intrusion_detection
Event Outcome	success

The right sidebar shows the 'Timeline Details' panel, which includes a 'Table' tab and a 'Json File (Raw)' tab. The 'Table' tab is selected, and it displays a list of fields and their values, including 'Title', 'Value', 'fields.Events.process.group\_id', 'fields.Events.process.group\_id', 'fields.Events.process.group\_id', 'fields.Events.group\_id', 'fields.kibana.alert.ancestors.id', 'fields.process.name.text', 'fields.kibana.alert.original\_event.code', 'fields.Events.process.session\_id', 'fields.kibana.alert.rule.description', and 'fields.signal.rule.id'.

The screenshot displays the CISO Workplace interface for a specific alert. The main panel shows a table view of the alert, with a 'Table Timeline' toggle switch highlighted by a red box. The table lists the following data:
