## CRAM Updates

- Validation in text input

A screenshot of the CRAM interface. On the left is a sidebar with navigation items: Risk Management, Dashboard, Asset Identification, Risk Assessment, Risk Management, Task Management, and Geo Location. The main area is titled 'Critical Business Functions (CBFs)' and contains a list of items with character counts: 'Cyber Security Analysts and Spec...' (38/250), 'PC Performance Tuning' (21/250), 'Cyber Security Managers' (23/250), 'Security Operation Vice President' (33/250), 'Cyber Security Subject Matter Exp...' (42/250), and 'Cyber Security Incident Response' (42/250). A dashed box highlights the 'Add Section' button. To the right is a section titled 'Your CRAM™ Building Blocks' with the text 'In order to see your personalized Cyber Risk Assessment and Management™ you need to answer some questions.' Below this text is a diagram of interconnected 3D cube icons representing building blocks.
