CIM v3 Updates:

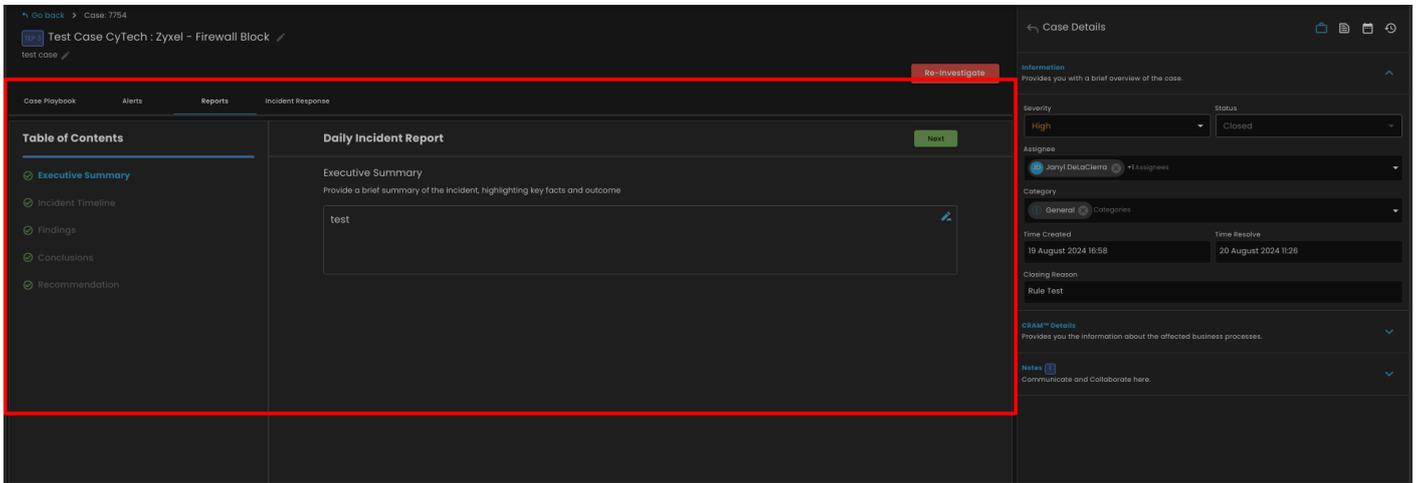

Playbook Status Update

The screenshot shows the CyTech CISO Workplace interface. The main content area displays a 'Case Playbook' for Case 7754, titled 'Test Case CyTech - Zyxel - Firewall Block'. The playbook consists of five phases, each with a green checkmark and a 'Done' button:

- Phase 1: 1. Data Enrichment (4/4) Done
- Phase 2: 2. IP Intelligence Check (1/1) Done
- Phase 3: 3. User Communication (1/1) Done
- Phase 4: 4. False Positive Analysis (2/2) Done
- Phase 5: 5. Escalation (1/1) Done

Below the phases, there is a summary item: 'Initiate hand-offs to tier 2 analysts. Done'. A red box highlights the 'Done' button for the first phase. The right sidebar shows 'Case Details' with information such as Severity (High), Status (Closed), Assignee (Janyl DeLaCiera), and Time Created (19 August 2024 16:58).

Reports Support

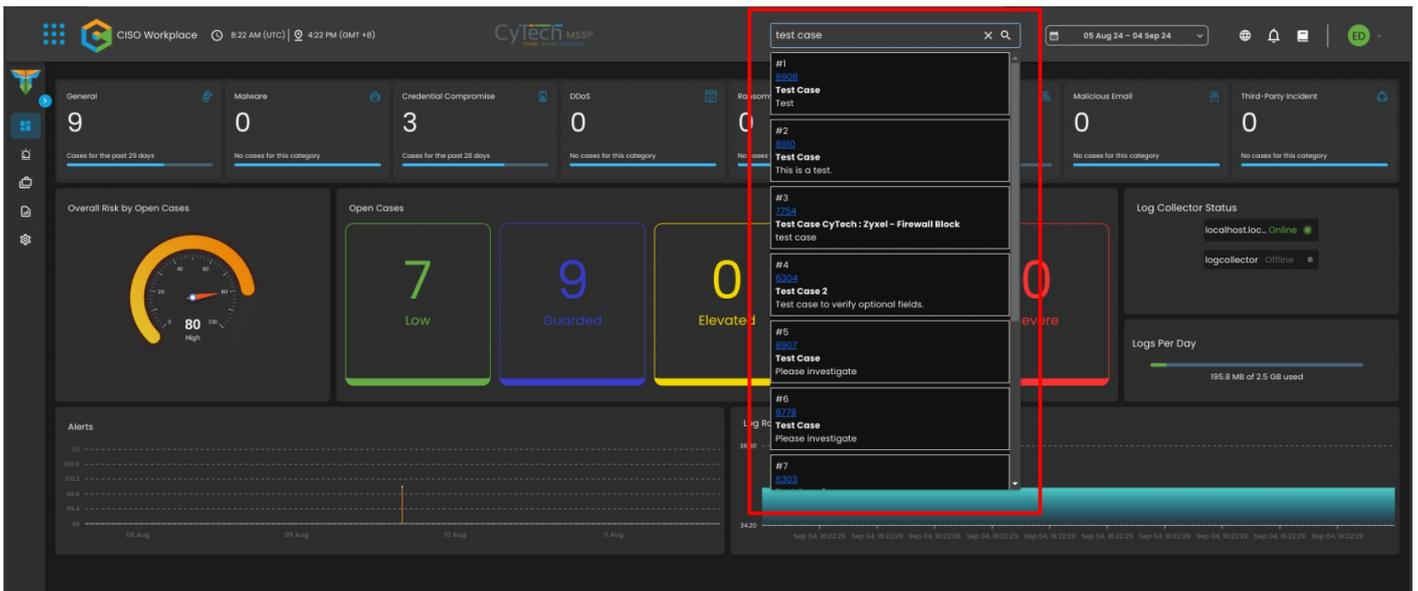

Search Support

☐ Limitations:

Only Cases can be search. The fields that are searched are the 2 fields: *Title* and *Description*

☐ Known Issues:

Searching on Alerts is not yet supported.

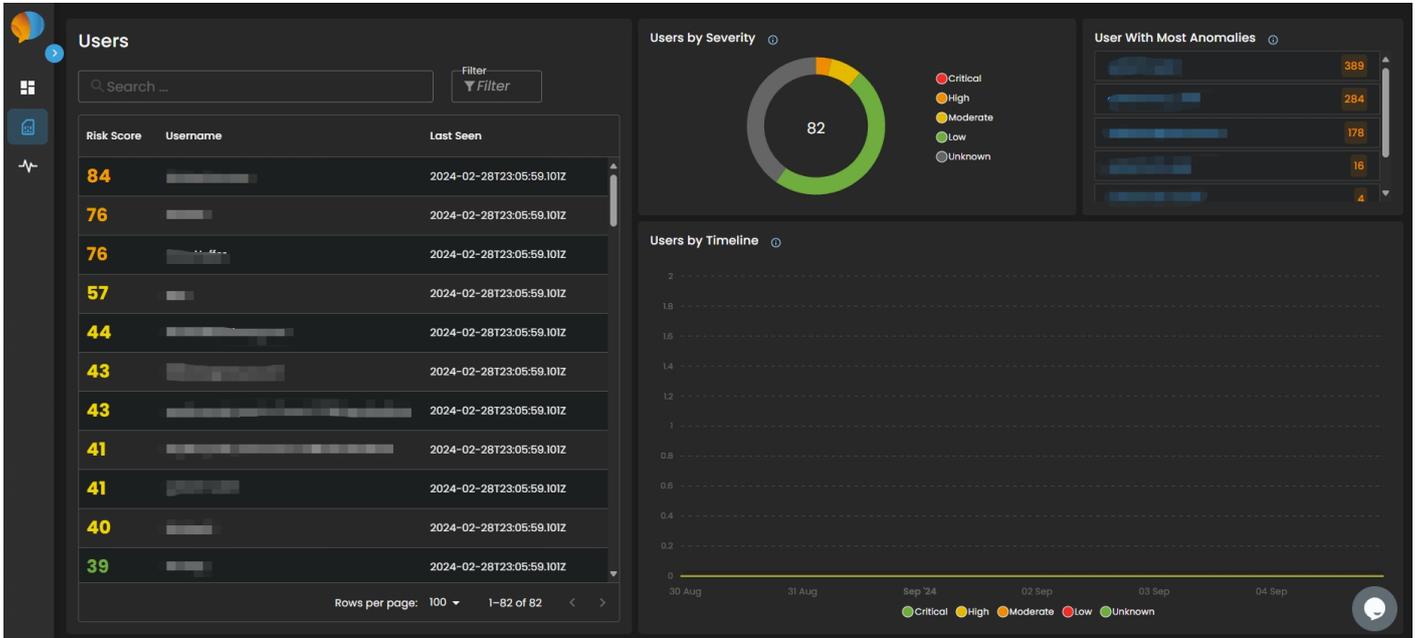

UEBA Updates

Support for User and Entities Page

☐ Known Issues:

Search and Filter are still not yet supported

"Rabbit Hole" is not yet supported
